

Buffered Ascorbic Acid *Improved*

NPN 80086187

What Is It?

Buffered Ascorbic Acid combines calcium ascorbate, magnesium ascorbate, and potassium ascorbate to create a neutral pH vitamin C. This special form of ascorbic acid lessens possible gastric irritation in sensitive individuals.

Uses for Buffered Ascorbic Acid

Various Physiological Support Properties: Vitamin C offers a wide range of support for the human body. It is an effective antioxidant and free radical scavenger supporting cellular health. It supports the body's defence system by enhancing white blood cell function and activity, and increasing interferon levels, antibody responses and secretion of thymic hormones. Furthermore, this antioxidant has histamine-lowering properties and increases lymphocyte formation. It is essential for the formation and maintenance of intercellular ground substance and collagen, which are important for bone health. As an integral collagen cofactor, vitamin C also has a role in wound healing.

What Is The Source?

The ascorbic acid in this formula is derived from corn dextrose fermentation. The minerals in this formula are naturally derived from limestone.

Recommended Dose

Adults: Take 1 rounded scoop (2.2 g) daily with a meal, a few hours before or after taking other medications or natural health products, or as directed by a healthcare practitioner.

Buffered Ascorbic Acid

Medicinal Ingredients (per scoop [2.2 g])			v
Vitamin C (calcium ascorbate, magnesium ascorbate, potassium ascorbate).....			1220 mg
Calcium (calcium ascorbate).....			100 mg
Magnesium (magnesium ascorbate).....			60 mg
Potassium (potassium ascorbate).....			20 mg
